Dear John:

I received the financial breakdown, invoices etc, on the sale of the Saratoga. I have been busy with Bible Conference activities and 4th of July services and so on, so just now have the time to respond. Thank you.

I want to say how much I have appreciated your professional and businesslike handling of the details involving our transactions, as well as your understanding of our situation in a need of flexibility contacting me etc.

We were very pleased with your advice, evaluation etc. Though the Saratoga was a nice little tool and a great little plane it did not quite meet our growing need for speed, height, range and weather capabilities. We have already added another Garmin 430 to our jet prop and are enjoying the added capability.

Sincerely,

P.S. I was quite interested to see the "Re-Born" Lance. I know you are enjoying it.
