Reg: Sale of Piper Lance

Dear John:

I just wanted to thank you for the quick sale of our Piper Turbo Lance II. We were not expecting the aircraft to sell after being listed for just one week. It was a pleasant surprise, and confirmed that we made the right decision. I also wanted to thank your staff, they were very helpful, and professional.

When I found out the aircraft was going to be used for missionary work, I knew it was God inspired. We had used the aircraft on a limited basis in the past for our own church. Now am sure God has bigger plans for its use.

Should we need to purchase or sell an aircraft in the future or recommend your company is our number one choice. Your knowledge of these aircraft is remarkable. I'm sure if we tried to sell on our own, it would still be in the hanger today.

Sincerely yours and God Bless,
