**Re: PIPER SARATOGA N558MG/N47WP**

Dear John:

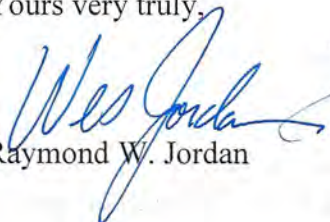

I just wanted once again to tell you how pleased that Margaret, Phillip, and I are with the modifications and annual inspection which your company performed upon our aircraft. We are all very thankful that we have Bartelt Aviation to rely upon in making sure that our aircraft is both safe and in compliance with all FAA and manufacturer's requirements.

We are also extremely pleased with the new paint job upon the aircraft. Please convey to the paint shop our appreciation for the fine work and the flawless application of the Scheme Designer's design to the aircraft.

Thanks for the comprehensive handling of this project including the transfer of the new N- number to the aircraft.

We are extremely pleased, and we will be back to see you and your fine staff.

Yours very truly,

  
Raymond W. Jordan
