Larry

I just wanted to drop you a quick line and express my satisfaction again with the purchase of our Archer and with the work that you and the other people at Bartelt did for us. Your efforts definitely turned our purchase from what is usually a stressful process into a very exciting experience. The airplane has proven to be exactly as you represented it during the sale with absolutely no "hidden" surprises. This has all gone into allowing us to thoroughly enjoy owning our first airplane. I will definitely remember Bartelt Aviation when it comes time for an upgrade.

Best wishes

Rock Brown
