Mr. Bartelt:

I would like to take this opportunity to commend you, Larry Russell, and your entire staff on the wonderful experience I encountered with the purchase on my Piper Turbo Lance. I have purchased airplanes in the past, but working with you and your company was truly a pleasure and I would highly recommend your company to anyone interested in the purchase of an aircraft. Your professionalism, attention to detail and safety consciousness are to be commended. When I'm ready to purchase another airplane, your company will be my first and only call that I will make.

Good Luck and good flying.
