Re: Purchase of 1982 Piper Saratoga/N8203T

Dear John:

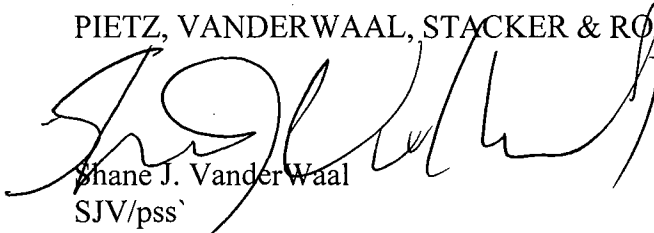

I wanted to take a moment and express my sincere gratitude and appreciation in the acquisition of N8203T. I cannot compliment you and your staff enough in the professional and efficient manner in which I was able to acquire this aircraft. As you know, the purchase of an airplane for anyone is a large financial undertaking. However, purchasing the aircraft through Bartelt Aviation made the potentially complex process extremely easy.

Your ability to represent the seller in our transaction while refereeing the pre-purchase inspection and negotiation process was invaluable. This was followed by the excellent representation of your instructor pilot after the acquisition in the training of the aircraft. By the way, I would strongly recommend any pilot new to the Piper line of aircraft to go through your training program. My instructor pilot, Darwin, was professional, courteous, and above all an excellent teacher in the aircraft that I purchased.

Again, John, I want to thank you and your staff's time, effort and perseverance. It is truly appreciated and I know I will continue to appreciate it in the many hours I spend in N8203T.

Sincerely,

PIETZ, VANDERWAAL, STACKER & ROTTIER, S.C.
