To whom it may concern,

I first came in contact with Bartelt Aviation Inc., 10 years ago when I decided to become a Saratoga owner.

I have kept in contact with Bartelt Aviation Inc., over the years and when it came time to sell my beloved bird there was only one place to go.

Larry Russell took over from there, from repositioning the airplane, to detailing, to marketing and selling. Larry made, what could have been a painful experience, a painless and enjoyable experience. Professional, courteous and knowledgeable are some words that come to mind to describe Larry. In my mind there is only one place to go to buy or sell a Saratoga, Bartelt Aviation Inc.
