John:

Just wanted to say a few words regarding the good service you folks performed on the marketing of my Turbo Saratoga II. It was marketed in a very professional manner with the excellent pictures used in the displays. The aircraft was prepped and made ready for buyer viewing and pre-buy inspections.

I was kept in the loop at all times and informed at all levels of the selling process clear through final payout; all without a hitch and a very smooth experience for me. Thanks for the very fine seamless service.

Respectfully,

Olen Spurgeon
