Subject: saratoga purchase

Larry,

I just wanted to take a couple minutes and let you know how much I appreciated working with Bartelt Aviation on my recent Saratoga purchase. As I told you before, in my experience, good, professional people are hard to come by. I couldn't have asked for better service, and was extremely pleased with the attention to detail that you, John, and Pete showed in acquiring my aircraft, handling all of the "punch list" items, and making sure I was comfortable in the Saratoga before I left Sturgis. I very much enjoy working with people who share my way of thinking. Too many people in this business sacrifice safety and honesty for a profit. In every step of our acquisition, I always knew you all had my best interest and safety in mind.

I am writing this letter from Mount Washington, New Hampshire, where my new Saratoga has allowed my family to vacation. On the flight up from Myrtle Beach, we stopped in Teterboro, NJ (across the river from NYC). I was actually getting a little envy from a couple Falcon pilots who walked over to see the Saratoga. I can't say I ever thought that would happen!

Hopefully, our sale of N2700R will go smoothly. But, regardless, I wanted you all to know that I sincerely appreciate working with you on N17AU, and that I can't imagine purchasing another aircraft unless Bartelt is involved in the deal. Thank you again, and please don't ever hesitate to call if I can assist in any matter (or if Pete needs a place to stay in Myrtle Beach).
