Mr. John Bartelt  
Bartelt Aviation  
Kirsch Municipal Airport  
1301 W. Lafayette St.  
Sturgis, Michigan 49091

John;

I wanted to take a moment and write to thank you for a great plane and a great buying experience! As you know, I have been searching for the right "Toga" for several years as a step up from my Archer. N692DW certainly fills that bill, thanks mainly to you and your teams efforts to get the plane where it needed to be before the purchase went to close. It was a great plane to begin with. It just needed a little Bartelt Aviation TLC to bring it up where it needed to be. Now it is absolutely superb. Please thank Gloria, Larry, Kerry and Terry for their tireless efforts to get this deal done. There is an obvious sense of "Family" at Bartelt Aviation and shows in the pride they take in their work.

I would also like to thank Darwin for his patient and tireless efforts to transition me to the new aircraft. His calm demeanor in the cockpit was instrumental in giving me the training and confidence I needed to handle the Saratoga (now named "Lamb Chop" as christened by my wife).

John, thanks again for all your efforts to make this deal happen. Along the way, you kept me informed as to what the current situation was, what my options were and what came next. You are that rare thing. An "honest broker" who strives to keep both seller and buyer aware of all the details every step of the way and to ensure that both are treated fairly and honestly.

John, you don't just make airplane deals, you make friends and that, indeed, is a rare thing!

Sincerely,

Alan Weaver
