DENTISTRY WITH A PASSION

To Whom it may concern,

I would like to recommend Bartlet Aviation if you are in the market to purchase a Saratoga. My initial conversation with John, I was looking a an older model Lance or Saratoga and John pointed out several reasons to look at a later model and recommended one that was close to me. He was very up front about the condition of the aircraft and avionics. His staff and associates were very helpful for one who had never gone out on a limb for an aircraft like the Saratoga I purchased. The transaction was seamless and his Chief Pilot was a super instructor.

The transition to a high performance retractable aircraft was great. Darwin has continued to answer my questions even a year after the purchase.

I love my aircraft, Thank you John and Team.
