John Bartelt and Staff:

I want to say thank you for helping me purchase my first airplane. You and your staff made it go smoothly and without any problems. You made your self-available in many different ways and you responded to my questions quickly.

John you treated me like I was a millionaire even though I am a lower middle class person! Bartelt aviation treats people like they should treat people. You and your staff care for the customer. I feel like we are more like friends than we are doing business.

Darwin also helped me with the insurance required training for the airplane and he did an outstanding job. He was very friendly and easy to get along with and made the training seem easy and fun, the way it should be. I am looking forward to doing business with you in the near future. Your Mom is also a very wonderful lady. May God bless you and your staff!!
