Dear John and Team,

Thank you very much for stewarding us through the process of the purchase of Piper Saratoga N724AT. Your honesty, candor and passion for delivering an impeccable aircraft was evident throughout the entire process. I especially appreciate your attention to detail and level of communication which was distinct, direct and very difficult to find in today's business world.

Every member of your team was friendly, courteous and exhibited a high level of professionalism. The Saratoga school Darwin provided completed the level of service exemplary of Bartelt Aviation. We now have the knowledge and confidence to fly ourselves, our family and our team safely and expeditiously to our destination.

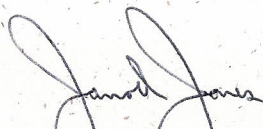

My brother and I will enjoy many hours of flying this Saratoga and should we need any aviation services in the future, we will absolutely call you first without question. Additionally, we will gladly refer you and your company to anyone considering the purchase of an airplane.

Thank you again for such an easy transaction.

Sincerely,

Paul W. Jones
